If for any reason this SBA guide does not work for you, do not worry. You can use your High credit score Fullz that has a full credit report and background report to apply for smaller personal loans **$500 - $2000**. You can use one fullz to apply for **3 – 5** loans like this, so you can make over **$2000** per Fullz.

Join my telegram channel above and stay tuned as I will share the guide for loans with numerous loan websites for FREE

You must cashout one way or the other

~~I will also be organizing live classes on, SMS spamming, Bitcoin stealer, Make easy money with Bitcoin Investment Scam, Grant format, Getting~~ your own Fullz with CR and BG, How to edit documents like driving

SBA has become difficult these days I won't lie, they still paying but it a bit tougher than previously. Only a few getting paid with the latest wave. The verification is a bit difficult these days so you need to make sure Ssn you are using is good with high credit score, or else they will just disqualify you and won't pay u anything.

With this new upgrade on the SBA site, if your credit score is low, just forget applying for it, you will waste your time.

The secret is to get Fullz with high credit score (700+) and get the credit report and background report as most of the verification questions comes from them. If you can fulfill this you will increase your chances of getting paid to 80%

Read below for more tips you need to cashout

SBA UPDATE

Don't edit your Electronic disbursements more than twice.

If you are able to get 3 of the 4 background questions, you are good to go.

The IP you used to do the first loan application, should be the same IP you use for the second application and it is advisable to get same state IP as the fullz you using. And If you started with phone, finish the job

with a phone, if you started with a PC, finish all the application with PC even after the emails.

Make sure the credit score of the ssn you used is high and not low; this is a loan so they don't pay to just anyone whom they feel can't pay back.

The probability of them paying the money is higher if the name on the loan application is the same as the bank receiving the money.

SBA no longer accepts prepaid cards, so if you applied with prepaid cards they won't approve you. They only take Bank account.

If they can't verify you, they might call the phone number you write there, so make sure the number on the SBA application is either your number (you can put app numbers there) or it your client number (provided she can talk to them for you).

I think I've done enough

Now go yea to the world and Cash out.

BUT GET THIS. Especially for beginners

I'm all about transparency, if you guys have been in this game, you know you won't succeed at the first try. You have to keep trying

Patience is KEY.

So let's start.

Tools Needed:

1. Make sure you have FULLZ with Name, SSN, DOB, Address information, background information account to help you bypass any verification questions [Truthfinder.com (not free)] and Full Credit Report. Fullz Credit Score must be at least 700

2. Bank Account Drop With same Fullz Details (Suntrust, Tdbank or wellsfargo good. You can use the fullz with BG Report and Credit Report to open one easily) once the money has entered your bank account, you can add the bank to cashapp and buy bitcoin, or add it to venmo, paypal etc. that's how to get the cash from the bank used for the loan.

Where to get the Tools

1. FULLZ – You can get from any legit vendor you know of or anywhere then you get the credit report and Backgroung Report yourself. Check list of sites below to get them. If you find it difficult getting the CR = Credit Report and BG = Backgroung Report you can buy the fullz that comes with CR and BG from https://fullzandsauces.su (You Can Also Get Editable PSD Templates for verification like Bank Statements, Utility bill, passport, Driving License etc..). Also for the fullz, you can buy or get any cheap fullz, the go to https://fullzandsauces.su and use their service to get the **credit report** and **background check**
2. Just use the Fullz Details to open any of these accounts (Suntrust.com, TDBank.com or wellsfargo.com any solid bank can work but these are the ones I have tried) Use RDP and 911
3. Socks get it from 991.re
4. RDP just get any US Rdp with admin access (https://greencloudvps.com or https://buycheaprdp.com are the ones I use)
5. Credit Report Sites
   This sites below are to check credit scores:
   (But use USA IP to access the site below)
   • https://www.creditsesame.com/
   • https://www.credit.com/free-credit-score/
   • https://creditwise.capitalone.com/
   • https://www.creditkarma.com
   Getting the credit report Is still tricky, if you find it difficult just

You need to create the account first or buy one (I do not sell but join my group and I will post how to open one successfully) then Follow the guide below.

Setup 911 on the RDP to apply for both for the bank and this SBA Loan following the guide below.

If you want complete fullz with Credit Report and Complete Background Report, Visit the link below

https://fullzandsauces.su

So Lets Get Started with the main Guide

If you have noticed, I talked about credit report and background report a lot. It is 100% necessary to succeed with this SBA. Do not just think with just the Fullz details you will succeed. Get a credit report with High Score and A Back Ground Report because the verification questions will come from them.

This is where you will need the help of your client or truthfinder.

And thats all.

You can use sites like truthfinder.com to get background info about someone

The free site to check background info is no longer working which is Familytreenow.com

Don't be stingy.
If you cash out something, don't forget to send token.

Don't listen to anyone that tells you that SBA no longer pays.
SBA still pays they are even planing on adding more funds to the system.
